Members of the Church have the responsibility to help protect minors who are brought into the physical and spiritual care of the Church from the evil of abuse in any of its forms. It is toward this end that the Diocese has established these policies.

Please note that anyone can access information on sex abusers living in a community by typing in "sex offenders in (state)" in any search engine. Specific information can be obtained from the site.

The Diocese directs all employees/volunteers to conduct themselves in a professional manner with concern and respect for their fellow employees, volunteers and children in the Diocese. Any abuse, harassment, or violation against others, especially minors will not be tolerated.

Any individual associated with the Diocese or a Diocesan Entity found to have violated this policy will be subject to appropriate disciplinary action, ranging from a written warning to termination, at the sole discretion of the Diocesan Entity.

A background check must be conducted on every current and new diocesan employee or new employee of any Diocesan Entity and volunteers having unmonitored access to children. The following must undergo a background check before they can be hired or before they may serve as a volunteer in programs or events sponsored by Diocesan entities:

POLICY 303 EQUAL EMPLOYMENT OPPORTUNITY

It is the policy of Pius X not to discriminate against any person, employee or job applicant because of race, color, religion, sex, age, national origin, or disability. This policy applies to recruiting, hiring, promotions, layoffs, compensation, benefits, termination and all other privileges, terms and conditions of employment. However, given the Mission of Pius X and the Roman Catholic Church, the nature and duties of certain positions within Pius X requires that employees holding those positions be practicing members of the Catholic faith and adhere to the doctrines and teachings of the Roman Catholic Church.

The Principal is the coordinator for the Equal Employment Opportunity policy.

Any employee who believes that his/her civil rights have been or are being violated in any way is urged to contact the Principal without delay. Allegations of improper conduct will be investigated, and appropriate remedial actions will be taken.

POLICY 306 HIRING PERSONNEL

Before advertising and/or searching for new personnel, the Principal and/or Chief Administrative Officer will evaluate the position, the parameters of the job, and the professional competencies and personal qualities it requires.

School administrators will follow Diocesan policies regarding background checks for new employees. The Administration asks for recommendations from cooperating teachers during internship, or from former employers, and, if applicable, from the person's pastor. The administration may personally check all references of applicants, review vitae for hiatuses in employment history, and check for involuntary or forced resignations. For administrative and teaching positions, this will also include interviewing the applicant regarding Catholic values and Church teachings. After employment, teachers are to be observed and evaluated on a regular basis. All allegations and rumors about grave misconduct will be investigated.

The Administration is responsible to screen applicants by interviews and visits, and present the applicant's resume with the recommendation to hire or not, to the Chief Administrative Officer. The Chief Administrative Officer notifies the Diocesan Superintendent of Schools after contracting with a teaching applicant.

POLICY 321 TERMINATION OF EMPLOYMENT

Listed below are the various types of separations from the employ of Pius X and the effect on benefits.

The following are forms of non-contract employee-initiated terminations:

1. Written or oral resignation.
2. Retirement.
3. Absence from work without notification of approval of the Principal.
4. Failure to return from an approved leave of absence at the expiration of the leave.

In addition to non-renewal of contracts with contract employees, the following are forms of employer-initiated terminations:

5. Job elimination may be necessary due to reorganization or financial considerations. If financial circumstances permit, any employee so affected will be given one month's notice, plus the equivalence of one pay period compensation with reasonable time off during the notice period to interview for other work.
6. Release without fault of an employee unsuited for or incapable of performing work assigned when no appropriate transfer is available.
7. Discharge of an employee who is suited for and capable of performing the work, but does not perform the work, for reasons such as inefficiency, absenteeism, and violation of rules of conduct including habitual carelessness or recklessness, disorderly conduct, insubordination, theft, leaving work before quitting time without permission, falsification of records, sleeping on the job and waste.
8. Reasons stated in the teacher contracts.

In some instances, both the individual and Pius X may agree that it would be mutually beneficial to end the employment relationship. Under these circumstances, no termination notice period is set by Pius X and a departure date is agreed upon within a reasonable time period. The effective date of termination will be the employee's last working day, which will not be a holiday. Unused medical leave is canceled upon dismissal. Accrued, unused vacation time will be paid to non-contract employees.

POLICY 324 RESIGNATION PROCEDURE

In the case of resignation, the following procedure applies:

1. Non-contract employee must complete a dated resignation letter stating the reason for termination and the effective date of termination. The completed resignation letter must be submitted to the Chief Administrative Officer. A legible, handwritten resignation is sufficient.
2. Whenever possible, administrative and professional staff persons are requested to submit a written resignation providing at least one month's notice. Non-contract employees are requested to give at least two weeks written notice of resignation. Benefits stop accruing on the day the resignation is effective. An employee's last working day may not be a vacation day or a day when school is not in session.
3. Employee is not offered a contract for the subsequent school year.

POLICY 327 EXIT INTERVIEW

Exit interviews are encouraged upon termination of employment. The terminating employee may arrange an appointment with the Chief Administrative Officer or his appointee for an interview. At the time of the interview, employees are expected to schedule a return of keys and all other Pius X property.

POLICY 333 POLICIES RELATED TO EMPLOYMENT

1. Other Employment. Except with the prior approval of the Chief Administrative Officer, no full-time faculty member should engage in any other occupation or be employed in any capacity other than the position held with Pius X during the school term.
2. Counseling Regarding Abortion. Pius X realizes the need for responsible Christian counseling in the area of abortion. Pius X personnel shall not counsel in favor of, encourage, refer for, or make arrangements for an abortion. Referrals related to abortion are to be made to the Director of Guidance. The Catholic Church teaches that 'Human life must be respected and protected absolutely from the moment of conception (CCC 2270).' Scandal, defined as leading another to do evil, 'is grave when given by those who by nature or office are obliged to teach and educate others (CCC 2285).' ”
3. Visitors. Employees are encouraged to cordially receive visitors into Pius X extending a spirit of hospitality. Every effort should be made to assist visitors in a warm, courteous and pleasant manner. Every employee has the responsibility of making certain that visitors in an area are authorized to be there. In case of doubt, visitors should be asked for identification. Employees on duty are discouraged from receiving personal visitors.
4. Social Life of Employees. In general, employees should keep their personal lives separate from their professional work with students. However, it is recognized that some socialization with students may be beneficial. Socialization with students on a personal level is not acceptable. In cases of doubt, staff should consult with the Principal prior to engaging in any such activities.

POLICY 339 VOLUNTEERS

All volunteers for Pius X who will interact directly with students must submit to a background check if requested in accordance with Diocesan policies.

POLICY 342 PUBLICLY STATED VIEWS

Public statements and professional practices on the part of Pius X employees must be consistent with the moral stance of the Catholic Church and must not conflict with Pius X policies. It is recommended that employees consult with the Principal before lending support or personal involvement on sensitive issues. This policy is not intended to conflict with the rights of Pius X employees to hold and express views privately.

The Chief Administrative Officer is the official spokesperson for Pius X. On specific occasions he may delegate that responsibility to others. Aside from the coaches and their regular communications with sports writers, the Chief Administrative Officer is the normal spokesman for Pius X. This is not to say he must be the only one who speaks with the media. There are many opportunities for other employees to put Pius X in the spotlight in a harmless and positive way. However, the Chief Administrative Officer reserves the right to be the only one to speak if there is an issue that may be in the least way perceived to be controversial. Regardless of the topic, however, all employees are to receive permission from the Chief Administrative Officer before they speak with the media. If for some reason time is pressing and an employee is asked to speak with the media and feels he or she can adequately do so, the Chief Administrative Officer requires the employee at least attempt to contact the Chief Administrative Officer to obtain permission. If you are unable to locate the Chief Administrative Officer, obtain permission from the Principal.

POLICY 345 UNLAWFUL HARASSMENT

Pius X will investigate reported incidents of alleged unlawful harassment, including sexual harassment. This investigation will be conducted in a confidential manner that is intended to protect the identity of both the person lodging the complaint and the person accused.

1. If an employee believes that he/she has been sexually harassed, that employee is expected to immediately report the conduct to the Principal, either directly, or through an appropriate supervisor.
2. An administrative review will be conducted to investigate the reported conduct and make a determination as to the action required, if any.
3. If it is determined that the alleged actions constitute harassment and the accused party is an employee, the accused party will be subject to disciplinary sanctions, up to and including immediate termination of employment. In the event that the accused party is not an employee, appropriate action shall be taken to the extent reasonably possible.
4. Both parties will be advised as to the conclusions of the investigation and remedial measures.
5. Any employee who believes that he/she is a victim of harassment and does not agree with the manner in which it has been addressed, may file a grievance directly with the Chief Administrative Officer.
6. Regardless of the action taken, if any, on the complaint, Pius X will conduct a follow-up interview with the alleged victim to verify that the alleged harassment has ceased.
7. Anyone intentionally making a false report of harassment under this policy shall be subject to discipline.
8. Except in the case of intentionally making a false report of harassment, no person shall be subject to retaliation for filing or taking part in an investigation of a complaint.

ATTENDANCE

POLICY 605 ATTENDANCE POLICY AND TIME OFF

Regular attendance by all employees is very important. An employee unable to report for work as scheduled must notify the Principal or his delegate as soon as possible. If the absence is planned, notice must be given as far in advance as possible. Any absence from the building must be recorded in the Faculty Sign-out Log. Frequent absence or tardiness will subject an employee to disciplinary action.

Pius X defines an absence as failure to report for and remain at work as scheduled. The only exceptions are those absences which are approved in this Manual, such as holidays, vacations, medical leave, deaths in the immediate family, cases related to workers' compensation, approved leaves of absence and days for which no work is scheduled.

A permanent attendance record for all employees is maintained. These records are reviewed periodically, and employees showing attendance problems will be counseled by the Principal.

Employees with unexcused absences will be subject to disciplinary action. Absenteeism detracts from the education of students and may cause an undue burden for those employees who must fill in for absent employees.

In regard to attendance, employees are expected to:

1. Maintain good personal health standards which will allow performance of work in a competent manner on a regular basis.
2. Exercise good judgment with respect to contagious ailments which might have an adverse effect on other employees and students.
3. Attend to personal affairs during nonworking hours.

When an employee reports late for work or finds it necessary to leave early, the employee must check with the Principal. Frequent tardiness may subject the employee to disciplinary action.

POLICY 690 PERFORMANCE EVALUATION AND ORIENTATION PERIOD

Pius X attempts to provide the best possible working conditions for employees. Each employee is responsible for conduct that maximizes his or her personal job performance and that of fellow employees. The Administrative Team is responsible for reviewing, guiding and evaluating job performance.

- 1) All employees will participate in their performance reviews as a help to the Principal in his or her responsibility of giving timely and direct feedback to each staff person. Performance reviews will take place no less than once a year, and more often at the discretion of the Principal. Written evaluations will be kept on file. Specific areas of concern will be documented and reviewed with the employee, along with a course of action to address the areas of concern.
- 2) The first six (6) months of employment for each new staff employee will be an orientation period. After six (6) months the employee will be evaluated by the assigned administrator. Regular status will be granted at that time if the employee's performance level is acceptable to the assigned administrator. If the employee's performance level is not satisfactory to the Principal, the orientation period may be extended by the Principal for an additional three (3) months. If the second evaluation is not acceptable, the employment relationship will be terminated.

Employees in the orientation period or its extension may be terminated at any time, with or without cause, and with or without notice or pay in lieu of notice. Granting of regular status does not guarantee employment for any specified period of time. Thus, unless clearly defined in a written contract, employment is for no definite period of time and will be subject to termination by either the employee or Pius X at any time.

GENERAL POLICIES (All Employees)

POLICY 704 ACCEPTABLE USE OF TECHNOLOGY

Pius X High School is pleased to make available to students and staff access to computers and the Internet. In order for the school to continue to make its computer network and Internet access available, all users must take responsibility for appropriate and lawful use of this access. Users must understand that one person's misuse of the network and Internet access may jeopardize (e.g. viruses) the ability of all users to enjoy such access. The Diocesan Education Technology staff will make reasonable efforts to supervise the network and Internet access, and must have the cooperation of all users in exercising and promoting responsible computer use.

It is important that users of the network not only follow all school policies in this regard, but also report any misuse of the network by other individuals to the principal. Misuse means any violation of this policy or any other inappropriate use that is harmful. All employees will use all technology properly, and all digital communications will adhere to Internet etiquette.

New technology is always on the horizon. An attempt to identify all technologies and list possible misuses of them is impossible. Therefore, throughout this document, the term "technology" references all existing and new devices or systems that are used or that will be used in the future.

All technology is provided primarily for school-related work. Personal use of computers and Internet should be kept to a minimum. Professional educators are expected to use technology during contract hours for planning, teaching and evaluating student learning as well as reading or research aimed at professional growth and development. Any serious misuse of technology will result in appropriate discipline, including the potential for non-renewal of contract or termination.

If one has doubts about whether a contemplated activity is educational, one must first consult with the principal. If further guidance is needed, the Diocesan Education Office and/or the Education Technology Administrative Coordinator can be consulted by the principal.

Unacceptable use for Faculty/Staff includes, but is not limited to:

- Allowing students to access the Internet without direct faculty/staff supervision.
- Visiting Internet sites that contain immoral content.
- Breaking this Acceptable Use Policy (AUP).

If the user receives a notebook (laptop) computer, it is the property of the school and is loaned to the faculty member. Borrowers agree to protect it from damage and theft. The borrower is monetarily responsible for any hardware or software damage inflicted to the laptop due to his/her negligence. Negligence would include leaving the computer in an unlocked location or vehicle.

Administrators have a right to access materials sent, received, or stored in school-owned computers or on the diocesan network. All communications (including email) and information accessible via the network are school property. As such, no user should have any expectation of privacy rights concerning use. Normal protocol of an administrative inspection of email is to view the communication in the presence of the user, after the user logs on and opens pertinent messages.

Computers are provided for faculty to complete work-related duties. Therefore, personal computers are not to be brought to school. Cell phones and other technologies should be used only in emergencies and should never interfere with the learning environment.

No software, including freeware or shareware, may be installed on any computer until approved by the Education Technology Office by request of the principal. The network or administrative coordinator will verify the compatibility of the software with existing software and hardware, and prescribe installation and de-installation procedures.

Because digital communication, particularly one-to-one, with students is subject to misinterpretation and unintended consequences, electronic and/or digital communications with students may be conducted for educationally appropriate purposes and only if it is a school-sanctioned means of communication. The normal school sanctioned communications methods include: teacher's school web page, teacher's school email, teacher's school phone and school websites. Faculty and staff should use extreme caution in communicating through the following means: social networking sites, student cell phones, text messaging, internet phone, chat rooms and instant messaging. Any use of the aforementioned means of

communication that is deemed to reflect poor professional discretion is grounds for disciplinary actions including termination of contract.

No web content or digital communication, outside of Diocesan approved school websites, may contain personal information such as personal phone numbers, addresses, e-mail addresses or other specific information.

Any online based activity involving student participation, must be with the direct approval of the school principal and under the direct supervision of the teacher. It is to be used only for educational purposes. Unacceptable web content/ digital communication includes, but is not limited to: cell phones, web pages, blogs, wikis, text-messaging, social networking and instant messaging.

Any behavior of a teacher/staff member who chooses to identify him/herself with the school on any social network must reflect positively upon the Catholic faith, the Diocese of Lincoln and the school. It is best to avoid giving employment information on these networks. Any communication with current Pius students must be limited to professional, Pius-specific accounts, unless the student is an immediate relative of the employee.

POLICY 706 ACTIVITY TRIPS

Pius X recognizes the importance and value of trips for education field study and approves of these visits to places of cultural or educational significance to further enrich the lessons of the classroom. The Principal may approve field trips during normal school hours on a single school day. However, if out-of-state field trips, or any field trips to foreign countries, are planned, these must have the approval of the Diocese and/or Chief Administrative Officer. (See Field Trip Approval Request, Appendix E, Form 702A.) This request should come at the earliest stages of planning. A minimum of one month's notice is required. A list of students going on the field trip must be posted on email to the attendance office and all teachers at least two days in advance. The following regulations should be taken into consideration when any field trips are being planned:

1. Adequate supervision by qualified adults, including one or more employees of Pius X.
2. Waivers by all adults and all parents/guardians of students taking any field trip of all claims against the Diocese and/or Pius X for injury, accident, illness or death occurring during, or by reason of the field trip.
3. Proper insurance for students, personnel, and equipment.
4. Inclusion of a proper first aid kit.

POLICY 738 SAFETY COMMITTEE

Safety education and accident prevention are important to everyone concerned with Pius X, not only as a protective measure during school and work hours, but also as an instructional means of developing an appropriate mode of behavior to minimize accidents. In an effort to achieve our goal, a comprehensive safety committee has been formed.

The Safety Committee is responsible for developing and recommending for approval by the Chief Administrative Officer, policies and procedures that will effectuate the mission and general responsibilities of the Committee. The Safety Committee implements the process to collect, monitor and evaluate information regarding hazards and safety issues and identifies opportunities to improve the safety of the Pius X environment.

The Safety Committee identifies and implements strategies designed to correct identified problems, including but not limited to the identification of persons responsible for correcting of identified problems, the time-frames for corrections to occur and follow-up to evaluate the outcome of the implemented corrective actions. The process includes, but is not limited to, routine safety surveys of agency facilities and equipment, review of incident reports involving safety issues such as (intentional and unintentional) injuries to staff, students and visitors, property damage, infections control and security issues. Data and corrective actions are reviewed by the committee and used to make recommendations to the Chief Administrative Officer who will modify facilities, equipment, staff training, volunteer orientation and/or policies and procedures to enhance the safety of the work/treatment environment for all Pius X students, staff and visitors.

The Safety Committee will maintain a Safety Notebook, which will be open to inspection by staff and will contain minutes of meetings, a written copy of the Safety Plan, and a list of committee members.

To report observed abuse in progress: 911

1. After reporting to civil authorities, the mandatory reporter should notify the Head of Guidance that a report was made. The Head of Guidance will a) notify the administration; b) coordinate an internal response to abuse or neglect reports (when appropriate); and c) document all reports made by school personnel. Such documentation should include at minimum the names of the reporter and alleged victim; the name, phone number, and organization of the individual who received the report; the date and time of the report; and any internal response or subsequent actions taken as a result of the report.
 2. The mandatory reporter may request assistance from the Head of Guidance or, if unavailable, another administrator in making the report to civil authorities. In the case of “joint” or “co”-reporting, the administrator involved will notify the remainder of the administration.
 3. If the mandatory reporter is not able to make a report to civil authorities in a timely fashion, he or she will ask the Head of Guidance or another administrator to make the report. The administrator who makes the report to civil authorities will provide the mandatory reporter with the name, phone number, and organization of the person who received the report. The mandatory reporter has the right to follow up with civil authorities to ensure the report was made – *mandatory reporters are not relieved of their legal reporting obligations by merely notifying a guidance counselor or administrator of the alleged/suspected abuse.*
 4. If a mandatory reporter has reason to believe the alleged victim may be in immediate danger (currently being abused by someone with frequent access to the child), the incident should be reported to *law enforcement* and the Head of Guidance or another administrator *without delay*.
 5. If the alleged offender is a Pius student, employee, or volunteer (including clergy or religious), the report should be made to law enforcement and the Head of Guidance or another administrator *without delay*. The administration will notify the Diocesan Superintendent of Schools.
 6. If the alleged offender is clergy or religious (regardless of whether they work/volunteer at Pius), the mandatory reporter should take the additional step of immediately reporting the information directly to the Diocesan Safe Environment Coordinator, (402) 613-2488, or Vicar General, (402) 488-0921, who will notify the Bishop.

- b. “Proper law enforcement agency” includes the police department or town marshal in municipalities, and the sheriff’s office in areas outside of municipalities. To the extent that the information is available, the employee shall provide the address and age of the abused or neglected child, the address of the person or

persons having custody of the abused or neglected child, the nature and extent of the abuse or neglect, any evidence of previous abuse or neglect including the nature and extent, and any other information which in the opinion of the reporting person may be helpful in establishing the cause of such abuse or neglect and the identity of the perpetrator or perpetrators.

- c. Nebraska law provides that any person who willfully fails to make such a report is guilty of a class III misdemeanor subject to a penalty of up to three months imprisonment, or five hundred dollars fine, or both. This law applies without exception to all persons including Catholic clergy and religious, unless there is a legally recognized privilege to refuse to disclose information gained from a confidential communication to a clergyman in his professional character as spiritual advisor.
- d. Nebraska law provides that any person participating in an investigation or making a report regarding child abuse shall be immune from any liability, civil or criminal, that might otherwise be incurred or imposed, except for maliciously false statements.
- e. If there is any indication that an allegation of the child abuse may be founded in fact, and the accused is an employee or volunteer of Pius X, the accused will be temporarily suspended with pay from his/her job pending further investigation and advised of such by means of a written and dated memorandum. All involved parties are advised to seek legal counsel immediately taking into account the Policy of the Lincoln Catholic Diocese Regarding the Reporting of Alleged Cases of Child Abuse or Neglect dated July 22, 2013.
- f. Great care must be taken to protect the privacy of the alleged victim and avoid defamation of character of the accused. Those with knowledge of the alleged/suspected abuse should refrain from discussing details of the situation – particularly details that might identify the alleged victim or the accused – with anyone other than the administrator(s) involved in the reporting of the information. The administration will facilitate debriefing sessions or support services in a timely fashion for mandatory reporters who ask or demonstrate the need for them.
